

It's a simple  
**MUST...**

**Fit, Function And  
Esthetics**

**“Keeping your patients smiling”**

## **ClassiTemps**

### **THE NEW STANDARD**

**ClassiTemps** are the new standard in provisional temporization. With the high level of patient education and demands for esthetic dentistry, it's important that in the provisional stages of restorative treatment, the esthetic and functional requirements are satisfied.

### **STRENGTH AND DURABILITY**

**ClassiTemps** are strong and durable by nature due to the heat and pressure processing. For longer span bridges a wire or cast reinforcement is added.

### **SIMPLICITY**

After your preparations, you simply relin and cement the **ClassiTemps**.

*For decreased chair times, ask about seating  
stents. If you would like more detailed  
information, please contact us today.*
